This has reference to the news article entitled “DENR limits areas for mining activities” posted in philSTAR.com on April 25, 2018. The article reported in part that:

“MANILA, Philippines — The Department of Environment and Natural Resources (DENR) is limiting the areas to be mined and developed as the government moves toward prioritizing environmental rehabilitation of the country’s mineral operations.

Based on its latest department administrative order, which is up for Environment Secretary Roy Cimatu’s signature, DENR is limiting production areas from 50 to 162 hectares depending on the mine’s annual production volumes.

Nickel mines that are producing up to one million metric tons annually will be allowed to work on 50 hectares and can reach up to 100 hectares for those with output of more than nine million MT.

Mine sites with processing plants can develop up to 162 hectares.

....

The mining firms have also expressed concern over the schedule of the implementation of order. The DENR wants it implemented in the next six months.

....”

Based on the news article, said cited DENR administrative order is still for signature of Secretary Roy Cimatu. Moreover, by just reading on the news article, it looks like the target mining concessions are those in the metal mining. Based solely on the news report, the Company is unable to fully clarify or comment until said order has been officially signed and released for the Company to evaluate its effects. The Company, nevertheless is one with the government in taking steps to rehabilitate mining areas, in fact we have been doing progressive mining few years after we started coal mining at Panian Mine.

We shall apprise the Commission and the Exchange the effects of the administrative order to the Company’s business, operations and financial condition once we have secured the official signed copy of the same.
